of dollars worth of Clothing, Hats, and Furnishing Goods selling at the lowest possible cash prices. We buy direct of manufacturers in large quantities for spot cash, and so save all discounts. We own our goods

10 TO 20 PER CENT.

lower than any Clothing Store in Manchester. We sell for cash only, and have no bad bills. We can and will give you more for your money than the small stores.

Our buyers are looking all the time for the new things, and at any time we will buy big lots of goods for spot cash, provided the owners are willing to make a sacrifice. The benefits derived by our great cash purchases we always share with our customers.

Our Boys' and Children's Department occupies two large rooms, virtually small stores by themselves.

Come and see us. We will use you right.

REPORT OF THE BOARD OF HEALTH.

To the Selectmen of Goffstown:

GENTLEMEN: The Board of Health beg to submit the following report:

There have been reported to us during the year, three cases of diphtheria. These cases have been promptly isolated, and so far as we can learn, no cases have been contracted from them. There has been during the winter an epidemic of measles, nineteen cases being reported. There have been no deaths from measles, and but one death from diphtheria. Many of the cases of measles were so mild that often a physician was not called, and we only discovered them by accident. This is inexcusable, for the law plainly reads, "That any householder, knowing that any person in his household has any of the diseases which require the house to be put in quarantine, must, if no physician is in attendance, report the same to the local board of health within twenty-four hours or be subject to a fine of not more than two hundred dollars, or be imprisoned for six months or both." It would be very painful for any board of health to be obliged to enforce this law, yet occasions might arise where the health of the village might suffer, and many valuable lives be lost by such neglect. The state courts give the local boards of health power to enforce this law if circumstances should arise where gross neglect of one person should endanger the lives of a community.

All the cases of contagious diseases have been under the personal supervision of the members of the board, and we have seen that the houses have been thoroughly disinfected after the conclusion of the case.

The board desire to call your attention to the fact, that in the ordinary disinfection by the use of the gas generated from sulphur that many articles in an infected room have to be removed, or destroyed by the action of this gas. We also wish to call your attention to the fact that so much doubt has been thrown upon the efficacy of this mode of disinfection, that it has been almost superceded by a new process, known as disinfection by formalin, or by the gas generated from wood alcohol. In a recent case of diphtheria which occurred at the county almshouse among the children, this method was used by a member of the Manchester Board of Health, and the disease promptly stopped, only the one case occurring. This method is harmless, and at the same time is the best disinfectant known, but it needs special apparatus to use it, which can be procured at a cost of less than ten dollars. The board would suggest that one of these be procured for the use of the board of health.

One complaint in regard to a sink-drain has been attended to.

Respectfully submitted.

FRANK BLAISDELL, M. D.,
CHARLES F. GEORGE,
Board of Health.

REPORT OF THE TRUSTEES OF THE ROGERS FREE LIBRARY.

Fifty-one new names have been added to the list of those taking books from the library. The average circulation, 140, is the same as last year. Less books have been donated than in any previous year. There are, without doubt, stowed away in the attics and closets of many of the houses in town, books, pamphlets, and records that are of no practical use to the owners, but may be of great value in preparing the history of the town, a work that ought to be entered upon at once. We invite you to donate such to the library. Most of the towns around us have their histories in print. They are now out of the market, and can be obtained only through private parties. In preparing our history these will become very helpful, and any person having such can confer a great favor by furnishing them to the library. If not able to donate, a reasonable price will be paid. Old sermons and addresses delivered in the town, reports of public meetings, agricultural and other societies, historical facts in print or in writing deposited here will be safely kept, and may prove of great benefit.

We annex a list of the books purchased and donated during the year, and the librarian's and treasurer's reports.

REPORT OF THE TRUSTEES OF CEMETERIES.

We are pleased to note a growing interest each year in the care of lots, both as regards the present and future.

We have received the present year the following legacies toward the perpetual care fund: Mrs. Irene Patterson of Methuen, Mass., $100; by the will of Mrs. Harriett Little of Grasmere, $300.

At the west village the tomb, for which the town so generously voted the appropriation, has been constructed. We feel to thank the citizens for so doing. We have endeavored to construct a substantial and handsome structure, and one we think a credit to the town, and which will be appreciated in filling a long felt need.

We wish to thank the citizens generally for the interest taken in the yards.

BY-LAWS OF THE TOWN OF GOFFSTOWN RELATIVE TO THE CARE OF CEMETERIES. ADOPTED MARCH 14, 1893.

Section 1. The Village and Center cemeteries, of the town of Goffstown, shall be under the sole care, superintendence, and management of a board of trustees, which shall

consist of the chairman of the board of selectmen, the town treasurer, and three citizens of the town of Goffstown; one of said citizens to hold office for one year, one for two years, and one for three years, and each year thereafter, at the annual election in March, one trustee shall be elected, who shall hold his office for the term of three years, all to serve without pay.

Sect. 2. Said board of trustees shall annually, on the third Tuesday of March, meet and organize by the choice of a president; the town treasurer shall act as secretary and treasurer of said board, shall furnish the said town a bond in the sum of three hundred dollars, shall receive all applications for lots, and shall, under the direction of said board, make and sign all deeds of said lots, shall pay into the town treasury, on the first day of each month, all sums of money received on account of said cemeteries, and shall perform such other duties in relation to said cemeteries as the said board may from time to time require.

Sect. 3. Said board of trustees shall make such rules and regulations for their own government, and for the government of all subordinate officers by them appointed, as they may deem expedient, and shall fix the price for which all lots shall be sold. A majority of the board of trustees shall be necessary to constitute a quorum for the transaction of business.

Sect. 4. The proceeds of the sale of lots in said cemeteries shall be paid into the town treasury separate from any other fund of the town, and subject to the order of said board, and shall be devoted to the liquidation of all amounts paid by the town on account of said cemeteries, either for land or for the improvement and embellishment thereon, under the direction of said board, who shall also have the control of any appropriation which may be made for the cemeteries by the town, and in case the revenue from the sale of lots is insufficient for the needed repairs and necessary expenditures, such balance shall be paid from the town treas-

ury, by order of the selectmen on said town treasurer, when the bill is approved by a majority of said board of trustees.

Sect. 5. The management of any donation or legacy that has been or may be made to the town of Goffstown for the purpose of insuring proper care and attention to any grave or lot in either of said cemeteries in said town, and the avenues, grounds, and inclosures connected therewith, shall be vested in said board of trustees.

Sect. 6. Said trustees are hereby authorized to accept any donation or legacy in the name and in behalf of said town of Goffstown, when made in accordance with chapter 51, General Laws, and when such donation or legacy is made in accordance with the terms and conditions herein contained. All funds thus accepted shall be invested in United States bonds, or state, county, or town securities within the New England states, and the annual income thereof alone expended in performing the conditions attached to such donation or legacy.

Sect. 7. Said trustees shall not be required to make separate investments of the different sums accepted under the by-law, but they shall apply the income or interest thereof in as equitable a manner as practicable, as follows: First. To keep in suitable and good repair and preservation the lot of the donor, and monuments, tomb, fences, curbing, shrubbery, soil, and flowers thereon. Second. To allow the surplus, if any, of such income or interest to accumulate for such time as said trustees may deem expedient, or, in their discretion to apply the same surplus, or any part thereof, from time to time, in ornamenting and preserving the grounds of the cemeteries.

Sect. 8. It shall be the duty of said treasurer to publish each year, in the annual report of the town, a statement showing the receipts and expenditures and condition of the funds accepted under this by-law, his account being audited and approved by the town auditors. The statement of the treasurer shall be accompanied by a report of the trustees, giving

in detail their doings of the previous year, together with such suggestions or recommendations as they may deem useful.

SECT. 9. Said by-laws may be altered or amended by a two thirds vote of the voters present at any legal meeting.

[Chapter 51, General Laws. Laws of 1893, chapter 68, sections 1 and 2.]

REPORT OF BOARD OF EDUCATION OF THE INDEPENDENT DISTRICT.

To the Board of Education of the Town of Goffstown:

In compliance with the statute we submit the following report:

Number weeks schooling during the year ending Aug. 1, 1897, 35. The number of scholars enrolled, 196. Number in high school, 38; grammar, 35; middle, 45; higher primary, 34; lower primary, 44. Average attendance in high school, 36; grammar, 30; middle, 38; higher primary, 31; lower primary, 37.

The per cent of attendance is 91, the high school having 97, and the lower primary, 89. Of those in the lower primary 8 were under 6 years of age, and 12 were over 6 but less than 7. Three are given as 8, 3 as 9, and 1 as 10. In the higher primary the youngest scholar was 7 and the oldest 12. In the middle school the youngest was 10 and the oldest 15. In the grammar school the youngest was 11 years and 4 months and the oldest almost 19. In the high school the youngest was 12 years and 8 months and the oldest 18.

The census taken in April, 1897, gives the whole number between the ages of 5 and 16 residing in the district as 186. Eighteen are reported as not attending school. Two of these were over 15 years of age, and have ceased to attend school. Of the remaining 16 all but 1 have since been in the school.

A class of five, Bessie Rand, Mabel Fletcher, Bertha Martin, Josie Thompson, and Frank Seeton, graduated at the close of the spring term—four girls and one boy. This is not only about the average ratio in this school, but of other schools

also. If in the near future women become the leaders in the world's progress, it will be because they have honestly earned the position by qualifying themselves for it.

The graduating exercises were held in the town hall, and were well attended. The essays were well prepared and pleasantly delivered, and bore testimony to the faithful work of the teachers and to the ability of the scholars.

A pleasant reception was held at the same place on the evening following the graduation. A goodly number of the former graduates and many of the friends of the school were present.

Early in the year a fair was held by the school, in the interest of a school library. About $100 were raised. The sum of $30 was expended in procuring some philosophical apparatus, and the following books were purchased:

International Cyclopaedia, Crabb's Synonyms, Classical Dictionary, Latin Lexicon, Dictionary of Greek and Roman Biography and Mythology, Historical Reference Book, Parker's How to Teach Geography, McCormick's Practical Work in Geography, Kidd's Vocal Culture, Buckley's Fairy Land of Science, Bartlett's Quotations, Phillips's Classical Atlas, Webster's Unabridged Dictionary, Harrison's This Country of Ours.

Several other books have been presented, and a nucleus for a good library is thus begun.

To accommodate these books a bookcase has been procured and placed in the high school room. Another bookcase with glass doors has been built in the recitation room, in which are kept the books furnished by the town. They have heretofore been piled up in a closet where they could with difficulty be found and made available for use. They are now more safely kept and more easily reached, while the closet vacated by their removal furnishes a convenient place for the philosophical apparatus.

About a week before the winter term was to close, the boiler generating the steam for heating the house sprung

aleak, and a new boiler was procured. Experience had proved that the old boiler was inadequate to the work required of it. Since it had been placed in the building two rooms had been added, and a larger boiler was needed. One more than double the capacity of the old one was put in, and it has warmed the whole building without trouble the coldest day of the present winter. This test of its capacity is sufficient to prove that hereafter reasonably warm rooms may be expected.

Mr. Charles Crooks had charge of the high school the first term of the year. On account of ill health he resigned, and with the second term, Mr. Henry Stark was elected to succeed him. Mr. Stark had no experience in teaching. He has, however, met with gratifying success. He has met the expectations of his friends, has won the confidence and respect of the scholars who, under his instruction, have made commendable progress. He has been assisted by Miss Bertha Pattee, of whom we have spoken in previous reports. The experience of the past year confirms our high estimation of her as a refined, intelligent lady and a competent teacher.

Miss Flint had charge of the grammar school during the year, and the class graduating from her room and entering the high school bore testimony to the thoroughness of her instruction. No class ever left the room with better knowledge of history.

Miss Page in the middle room, and Misses Estes and Warren in the two primaries remained through the year. Twelve scholars from outside the district have attended one or more terms during the year.

The year commencing with September, 1897, opens with the full complement of scholars, 180. Some changes in the corps of teachers have occurred. Miss Page resigned, and was succeeded by Miss Gertrude J. Green at the commencement of the year. Miss Green is a graduate of the normal school, and is an earnest, intelligent teacher. She loves her

work and her scholars, and they love her. We hope for good results from her labors.

At the close of the fall term Miss Flint resigned, and was succeeded by Miss Edna A. Allison. Miss Allison is also a graduate of the normal school, and promises to be an excellent teacher. These changes in the corps of teachers affect the order and progress of the school, especially so in the rooms where the changes occur. We think, however, steady improvement can be seen, and that in all the rooms good work is being done.

The good reputation of the school has been maintained, as is evidenced by the attendance of twelve outside scholars. Many of the parents show their interest by their visits. We are compelled to use the word "parents" as a synonym of "mothers." We feel assured that the presence of the fathers in the school would be appreciated.

REPORT OF THE SCHOOL BOARD OF THE TOWN DISTRICT.

The school board would submit the following:

The schools the past year have been fairly prosperous. We note a growing interest in some sections of the town in our schools, both on the part of our citizens and scholars. The parents realize that their children must be better educated than in the past to take the positions they should in life, and the scholars are to a good degree showing true scholarship, and manhood and womanhood by their deportment and behavior. Our teachers have labored hard for the success they have attained, and it would have been better could certain things be overcome. First, some of our scholars should appreciate the advantages and attend school as they should. The parents should attend to this matter, and see that their children are at school, and not allow them to be out on so slight a pretext. If things do not go just as your boy or girl wishes at school, and they flare up and say, "will not go to school any more," "don't like the teacher," you should see that that child goes to school, and allow no such talk. It is a great help to a teacher to know that he is sustained and has the co-operation of the parents.

The idea of fewer schools has for some time been in the mind of the committee, and it seems practicable, and we think better results might be secured. The schools would be larger and more interest taken. We regret exceedingly the acts of vandalism in the breaking into the schoolhouses, and loss of books and other property, and should the guilty parties ever be discovered they will be brought to justice.

We would recommend the raising of sufficient money to

run our schools thirty weeks, and re-insure the school buildings at Grasmere.
